

A Project Report On

**Study of Magnetic Properties of M-type  
Barium Hexaferrite ( $\text{BaFe}_{12}\text{O}_{19}$ ) in X-band  
Frequency Range: Formation and Methods -  
A brief review**

*Submitted by* **Subho Roy**

Department- M.Sc Electronics Science,

Semester 4<sup>th</sup>, Paper code: ELTPCOR01M

Under the guidance of **Prof. Ayan Kanti Pradhan**  
**And Prof. Shubhendu Maiti**

Assistant Professor.

Department of Electronics Science

**The Project Report**

**Submitted for the fulfillment of the requirements for the degree  
of Master of Science in Electronics Science (2021-2023).**

## Acknowledgement

I would like to express my profound and sincere gratitude to Prof. Ayan Kanti Pradhan and Prof. Shubhendu Maiti for guiding me to undertake and complete this project and also his valuable feedbacks. I would like to express my special thanks to Dr. Subhro Ghosal, the course co-ordinator and Head of the dept. of Electronic Science (PG), Acharya Prafulla Chandra College, for his constant support during the course of this investigation. We are indebted to Dr. Syed Rafi Ahmed (Teacher-in-charge), Dr. Prosenjit Roy Chowdhury and Dr. Abhijit Banerjee for constant encouragement, cooperation and help. Special thanks should also be given to Sri. Pratap Nath and Sri. Kanti Bhattacharya for their constant impacting and inspiring us. Words of gratitude are not enough to describe their constant support.

Subho Roy
